

The Institute of Medical Psychology and Medical Sociology, University Medical Center Göttingen seeks a

Psychologist (f/m)

We seek an experienced Psychologist for medical and psychosocial outcome research.

We initially offer a two year contract, a prolongation is intended, fulltime | salary according to TV-L.

The University Medical Center Göttingen is a tertiary care center and offers great development potential. Its 7,700 employees work in over 65 departments and facilities to provide top-quality patient care, excellent research and modern teaching. Göttingen, "City of Science", located near the center of Germany, the University Medical Center Göttingen is embedded in the city's attractive network of scientific research facilities.

We seek an experienced **Psychologist** for medical and **psychosocial outcome** research, especially in **patients after traumatic brain injury**, e.g. health-related quality of life, anxiety, depression, handicap, etc.

You need excellent knowledge in psychometrics (classical and modern test theory), in handling of large data volumes, and in neuropsychology. Experience in questionnaire development is an asset, expertise in statistics and command of R and SPSS are mandatory. You should already have a record of publications and of acquisition of funding.

Proficient use of both the German and English language are mandatory as the position requires teaching at the University Medicine Göttingen and cooperation in national and international research consortia. We initially offer a two year contract, a prolongation is intended.

You will join an enthusiastic international team of psychologists, statisticians, and sociologists. Habilitation is encouraged.

Women are especially encouraged to apply. Applicants with disabilities and equal qualifications will be given preferential treatment.

We look forward to receiving your application by **July 20th, 2018**:
