

The Institute for Medical Psychology and Medical Sociology is seeking an experienced

Psychologist / Statistician (f/m)

We initially offer a two year contract with the possibility of
prolongation, full time | salary according to TV-L

The University Medical Center Göttingen is a tertiary care center and offers great development potential. Its 7,700 employees work in over 65 departments and facilities to provide top-quality patient care, excellent research and modern teaching. Göttingen, "City of Science", located near the center of Germany, the University Medical Center Göttingen is embedded in the city's attractive network of scientific research facilities.

We seek an experienced **Psychologist with excellent statistical knowledge** for our international outcome research (esp. health-related quality of life, neuropsychological, psychosocial) **in children and adults** after **traumatic brain injury**, and dementia and other diseases. The successful candidate should have excellent knowledge in conducting outcome studies generating statistical knowledge (psychometric – classical and modern methods – biometrics), as well as experience in handling large data volumes. Command of SPSS and R is indispensable. Solid history of publishing and conduct of complex studies are important. Experience in acquisition of funding is beneficiary. Proficient use of the English language is mandatory.

Proficiency in German may be needed, as the position may require teaching at the University of Medicine Göttingen and cooperation in national and international research consortia. Excellent English is necessary for intense international cooperation.

Women are especially encouraged to apply. Applicants with disabilities and equal qualifications will be given preferential treatment.

We look forward to receiving your application by **August 16th, 2018**:
